

RECLAIM RUBBER

(A NEW LIFE FOR AN OLD RUBBER PRODUCT)

Baya Sanat Barman Company has been established since 2010 and currently is one of most important Iranian company concentrated on the producing, supplying and exporting different types of Reclaim Rubber. We produce different types of reclaim rubber such as Natural reclaim rubber and Butyl reclaim rubber.

Natural Reclaim Rubber (NRR)

One of the most important products of Baya Sanat Barman is NRR, which is recycled and manufactured from used scrap natural tube rubber. We performs a new method with low consumption energy in which scrap natural tube rubber can be change to NRR very fast.

Application of Baya Sanat Barman's NRR

Baya Sanat Barman's NRR is very refined rubber finding usage in households and industries. The product can be used in vast applications like automobile, extruded parts, moulded rubber parts and even as an adhesives.

Specifications

Baya Sanat Barman produces different types of NRR with the following specifications. We produce NRR in the name of our brand BSB.

BSB NRR E2:

The product is manufactured from very fine scrap natural tube rubber and has the following properties.

Property	Unit	Standard	Value
Mooney Viscosity	Dyn.s/Cm2	ASTM D1646	28 to 30
Ashes	%	ASTM D297-18	7 to 8
Density	g/cm3	ASTM D297-18	1.18 to 1.2
Hardness	Shore A	ASTM D2240	55 to 57

BSB NRR M2:

The product is manufactured from fine scrap natural tube rubber and has the following properties.

Property	Unit	Standard	Value
Mooney Viscosity	Dyn.s/Cm2	ASTM D1646	42 to 48
Ashes	%	ASTM D297-18	7 to 8
Density	g/cm3	ASTM D297-18	1.25 to 1.3
Hardness	Shore A	ASTM D2240	59 to 61

BSB NRR C3:

The product is manufactured from fine scrap natural tube rubber and has the following properties after some extra process.

Property	Unit	Standard	Value
Mooney Viscosity	Dyn.s/Cm2	ASTM D1646	45 to 53
Ashes	%	ASTM D297-18	7 to 8
Density	g/cm3	ASTM D297-18	1.2 to 1.3
Hardness	Shore A	ASTM D2240	63 to 65
